A Selected List
of
ANTHEMS

FOR THE SEASONS AND FEASTS OF THE CHURCH YEAR

CLASSIFIED AS TO DEGREE OF DIFFICULTY

Compiled and Published by
The Joint Commission on Church Music

NEW YORK: THE H. W. GRAY CO.
SOLE AGENTS FOR NOVELLO & CO.

THIS anthem list is planned to assist organists and choir directors in the selection of appropriate music for church use, and suited to the resources of their choirs. It is by no means exhaustive, but only suggests the type which has been found serviceable and helpful. Few numbers of real difficulty have been included, as their use would probably be confined to highly trained choirs, whose leaders might prefer to make their own choice.

The music has been classified under five grades of difficulty; Easy, Moderately Easy, Moderate, Moderately Difficult and Difficult. But it should be remembered that all unaccompanied music is in one sense difficult, no matter how it is graded.

It is especially urged that the words be studied no less than the music. A subtle knowledge of the text would often vitalize a dull performance into a helpful ministration.

Most of the numbers are published by the H. W. Gray Company. Those by other publishers are indicated in brackets.

A similar list of services and canticles will be published by the Commission at an early date.

Choir directors who may be interested in church music of the Tudor period, as represented by such masters as Byrd, Gibbons, Purcell, Weelkes, Tompkins, etc., will be well repaid by an examination of the lists of the Oxford University Press, 35 West 33d St., New York City.

Attention is called to the Selected List of Works relating to Church Music, published under the direction of the Commission for the use of the Reverend Clergy and choir masters.
